DOCTORS**
TEXAS
HALL of FAME

For the past 38 years, KSF Orthopaedic Center, P.A., has been at the forefront of orthopaedic care in the Greater Houston Area. Our success has come from our dedication to excellence in orthopaedics and patient care. We serve our patients with the highest level of respect and expertise.

One of the first centers to perform arthroscopic procedures in the Houston area, KSF has expanded its services to include expertise in spine, hand, joint replacement, sports medicine, foot and ankle, trauma, pain management, and rehabilitation. Our physicians and staff utilize cutting-edge technologies including MRI, bone densitometry, and on-site physical, and hand therapy. With locations in North and Northwest Houston, KSF patients receive convenient and comprehensive orthopaedic care.

Our physicians have a tradition of community service in the Houston area, including performing school physicals, provid-

ing medical coverage for sports events and teams, and participating in charity events. Our doctors also have a long history of serving Houston area hospitals as past presidents, chiefs of surgery, and chiefs of staff as well as serving on medical committees at the state and national levels.

KSF currently has 10 physicians, with specialties in almost all areas of orthopaedics and pain management. KSF also utilizes highly-skilled professionals including; physician assistants, registered nurses, physical therapists, and radiology technicians to ensure that patients receive the highest level of treatment from start to finish.

This marks the tenth year that KSF doctors have been selected to *Texas Super Doctors*[®], as seen in *Texas Monthly*, through a rigorous multistep process designed to identify physicians in Texas who have attained a high degree of peer recognition and professional achievement.
